Subject: Appreciation of the book entitled *Un baiser de papillon* by the René-Richard Library of Baie-Saint-Paul, Quebec

Dear Madam or Sir,

The René-Richard Library of Baie-Saint-Paul, in the Province of Quebec, is pleased to have added to its collection and provide its readers the poetry book entitled *Un baiser de papillon* written by Danish poet Sejer Andersen.

The fact that a Danish poet writes in French is rather unusual and we acknowledge this originality. We appreciate his efforts particularly in Quebec as we strongly advocate our language, French, everywhere in Canada as well as throughout the Francophonie.

Given that this book was a collaborative work with one of our regional artists, Marie-Renée Otis, who contributed the illustrations, it was obvious to us that this book had to be part of our permanent collection.

Since the day *Un baiser de papillon* was offered to our library readers, their interest has been regularly manifested.

Because of the sheer quality of the poems, the illustrations and the editing work, the poetry book of Sejer Andersen is without a doubt among the beautiful books of our collection.

Sincerely yours,

Denise Ouellet, Director
René-Richard Library
